+639761283174

472 Magiliw Street Area 4 Pinalagad Malinta, Valenzuela City

OBJECTIVE:

To apply my knowledge, skills, and dedication in contributing high-quality and goal-oriented work to the organization. Eager to continuously learn, grow professionally, and maximize my full potential while becoming a valuable part of the team.

PROJECTS:

- **FARM-AID** (Android Application – Built with Kotlin & Firebase) – Capstone project designed to help farmers sell their crops online. I was responsible for developing and creating the application, implementing the system features, and integrating Firebase for real-time data management and user functionality.
 - **COMPANY MAPPING** – Internship project for the company. Built with React, Tailwind, & MySQL. I was one of the developers who worked on creating the system, contributing to the development of the user interface, system functionality, and database integration.
 - **E-COMMERCE WEBSITES** – Projects built with HTML, CSS, and JavaScript. Collaborated with a team in developing responsive and interactive e-commerce websites, contributing to the design, frontend development, and overall functionality of the system.
 - **BRIGHTMINDS** (LMS WEBSITE) – Learning Management System website built with PHP, JavaScript, and MySQL. I was responsible for developing both the frontend and backend of the system, including user interface design, system functionality, and database integration.
-
